- Customized film blends
- State-of-the-art laboratory testing facility
- 1 to 4 - color printing
- Graphic arts and plate-making division
- Technical services and R&D support

Let your packaging speak for itself

YOUR ONE STOP SHOP FOR QUALITY FLEXIBLE PACKAGING

Several years ago, our local fruit growers expressed a need to extend the freshness of their products to accommodate extended storage and shipping times necessary to reach foreign markets. Shields, a division of Novolex, responded by developing a line of packaging that pre-serves freshness during these lengthy periods. As a result of this innovation, not only did they gain access to previously inaccessible foreign markets, but they were able to reduce product shrinkage as a result of dehydration and weight loss. Now fruit and vegetable growers ship their products around the world using sea freight at a dramatic cost savings over airfreight and their products arrive as pristinely as if they were shipped down the street.

Quality / Exceptional Service / Competitive Pricing
All Products Proudly Made in the USA
